**SIGN UP FOR FREE ENERGY AUDIT AT LOCAL EVENTS
AND GET FREE LED BULBS**

Lake Tahoe, CA June 13, 2017. Liberty Utilities customers can sign up for a free energy audit at either of two local events occurring this weekend, and receive free energy efficient LED bulbs during the audit.

Wildfire Safety Expo in South Lake Tahoe

TJ Maxx Parking Lot

Saturday, June 17 from 12 noon to 3 pm

Peaks and Paws

Squaw Valley Village

Saturday, June 17 from 11 am to 5 pm

In addition to free energy audit signups, customers can learn about other ways to save energy, money and the environment including our Refrigerator Recycling program that awards customers with a \$35 rebate when they recycle an old refrigerator or freezer unit in working condition. Information about income-eligible programs will also be available.

In 2016, 461 residential customers took advantage of Liberty's free energy audit—a 25% increase over the previous year! Collectively, their subsequent energy efficient improvements resulted in saving nearly 391 MWh of power! A record number of refrigerators were recycled last year; 225 which is nearly double of what has been done in prior years with an estimated savings of 169 MWh. According to the U.S. Energy Information Administration, the average California residential customer uses 557 kwh per month (2015 data).

Liberty Utilities offers energy efficient programs to help customers reduce their usage to save money and reduce greenhouse gas emissions. Energy conservation also postpones the need to build additional infrastructure to serve higher customer demand. Liberty routinely does system maintenance and improvements to increase reliability.

About Liberty Utilities

Liberty Utilities Co. owns and operates regulated water, wastewater, natural gas and electric transmission and distribution utilities in 13 states, delivering responsive and reliable essential services to approximately 800,000 customers across the United States. With a local approach to management, service and support, we deliver efficient, dependable services to meet the needs of our customers. Liberty Utilities provides a superior customer experience through walk-in customer centers, locally focused conservation and energy efficiency initiatives, and programs for businesses and residential customers. We measure our performance in terms of service reliability, an enjoyable customer experience, and an unwavering dedication to public and workplace safety. Liberty Utilities currently operates in Arizona, Arkansas, California, Georgia, Illinois, Iowa, Kansas, Massachusetts, Missouri, Montana, New Hampshire, Oklahoma and Texas.
