Subject:       Substitute Sheets – CalPeco Advice Letter 5-E

In accordance with Section 7.5.1 of General Order 96-B and at the request of the Energy Division, California Pacific Electric Company, LLC (U 933-E) (“CalPeco”)<sup>1</sup> hereby submits substitute tariff sheets 473 – 475; 478 – 479; 481; and 483-485 as Attachment 1 to incorporate certain minor revisions as requested by Energy Division. These revised tariff sheets were originally submitted as part of CalPeco Advice Letter 5-E, a **Tier 2** advice letter, on April 12, 2011 with an effective date of May 12, 2011. These revisions consist of:

- 1) Clarifying that the Net Energy Metering Application only applies to facilities less than 30 kW;
- 2) Ensuring consistent use of the term “Net Energy Metering” throughout the tariff sheets instead of “Net Metering”;
- 3) Revising the term “Facility Information” in the Net Energy Metering Application to “Facility Owner Information”;
- 4) Adding the missing word “facility” after “generating” within the second option under “Description of Service” in the Net Energy Metering Application;
- 5) Clarifying that Attachment A of the Net Energy Metering Agreement refers to the “Provisions of Interconnection Agreement”; and
- 6) Revising from Section 2827(b)(2) to Section 2827(b)(4) within Section 12.2 (Term and Termination Agreement) of the Provisions of Interconnection Agreement.

In accordance with General Order 96-B, Section 4.3, a copy of this advice letter is being sent electronically and via U.S. mail to parties shown on the attached list.

**DECLARATIONS**

This "Interconnection and Net Energy Metering Agreement for Residential Customers or Small Commercial Customers Interconnecting a Solar, Wind or Hybrid of Both Generating Facility having a capacity of less than 30 kW ("Agreement"), is entered into by and between the Customer-Generator ("CG") and Liberty Energy -- California Pacific Electric Company, LLC ("CalPeco"), sometimes referred to herein jointly as "Parties" or individually as "Party," consistent with, and in order to effectuate, the provisions of Sections 2827 and 2827.7 of the California Public Utilities Code and Tariff Schedule "Net Energy Metering" ("NEM"). This Agreement applies to the CG's "Solar, Wind or Hybrid of Both Generating Facility" ("Facility") identified below with the specified characteristics, and does not allow interconnection or operation of facilities different than those described. Accordingly, the Parties agree as follows:

**1. APPLICABILITY**

This Agreement is applicable only to CGs who qualify as Residential Customers or Small Commercial Customers installing a Facility of less than 30 kW capacity that is located on the CG's premises and is intended to be used primarily to offset the CG's electric use at the premises.

**2. IDENTITY AND LOCATION OF GC's FACILITY**

This Agreement is applicable only to a Facility at the location below. Facility may not be relocated or connected to CalPeco's system at any other location without CalPeco's express written permission.

The Facility is expected to operate in parallel with CalPeco's electric system on \_\_\_\_\_ which shall be not be more than eighteen months from the date of this Agreement. However, CG shall not commence parallel operation with CalPeco until written approval has been provided by CalPeco. (CG Initials \_\_\_\_\_).

**4. METERING AND BILLING**

Metering requirements and billing procedures shall be governed by CG's Otherwise Applicable Rate Schedule and the provisions of Schedule NEM. By signing this Agreement CG understands it will be billed and will be required to pay in each billing period for the monthly non-energy charges (i.e., non-per kWh charges) due under CG's otherwise-applicable tariff rate schedule. However, CG may (at its option) pay any amount for energy charges (including distribution, transmission, etc.) each billing period, with the understanding that any and all payments will be reconciled annually as set forth herein and as provided in Schedule NEM. The CG's charges will be totaled including: (1) the non-energy charges, and (2) the charge for any net-energy consumption as defined in Schedule NEM. The CG's total payments for the twelve (12) months or other Relevant Period as provided in Schedule NEM, will then be subtracted from

**1. PURPOSE OF INTERCONNECTION AND REPRESENTATIONS**

The purpose of this Agreement is to allow CG to interconnect with CalPeco's distribution system, subject to the provisions of this Agreement and CalPeco's tariff Schedule NEM. CG has elected to interconnect and operate its Facility in parallel with CalPeco's electric grid. The Facility is intended primarily to offset part or all of the CG's own electrical requirements. CG shall at all times comply with this Agreement as well as with all applicable codes, standards, laws and tariffs, and applicable requirements of the CPUC, and as amended from time to time.

**2. DISCONNECTION, INTERRUPTION OR REDUCTION OF DELIVERIES**

2.1 CalPeco may require CG to interrupt or reduce the output of its Facility under the following circumstances:

(a) Whenever CalPeco deems it necessary in its sole judgment, to construct, install, maintain, repair, replace, remove, investigate, or inspect any of its equipment or any part of its electric system; or

(b) Whenever CalPeco determines in its sole judgment, that curtailment, interruption, or reduction of CG's electrical generation is otherwise necessary due to emergencies, forced outages, force majeure, or compliance with prudent electrical practices.

2.2 Notwithstanding any other provision of this Agreement, upon termination of this Agreement or at any time CalPeco determines the continued parallel operation of the Facility may endanger the public or CalPeco personnel, or affect the integrity of CalPeco's electric system or the quality of electric service provided to other Customers, CalPeco shall have the right to require the Facility to be immediately disconnected from CalPeco's electric system. The Facility shall remain disconnected until such time as CalPeco is satisfied, in its sole judgment that the condition(s) causing such disconnection have ended or have been corrected.

2.3 Whenever feasible, CalPeco shall give CG reasonable notice of the possibility that interruption or reduction of deliveries may be required.

2.4 Electrical energy and capacity provided to CG during periods of curtailment or interruption of the output of the Facility shall be provided pursuant to the terms of the otherwise applicable tariff rate schedule(s) applicable to the electric service account to which the Facility is connected.

**3. INTERCONNECTION**

3.1 CG shall deliver the energy in excess of its on-site requirements to CalPeco at the utility's meter.

3.2 The metering requirements are detailed in CalPeco's Schedule NEM and, if applicable, Rule 21.

3.3 CG shall not commence parallel operation of the Facility until receipt of the following by CalPeco and written approval has been provided by CalPeco:

- (a) A completed and signed Net Energy Metering Application; and
- (b) A completed and signed Interconnection and Net Energy Metering Agreement; and
- (c) A copy of the CG's final inspection clearance from the governmental authority having jurisdiction over the Facility.

With these three documents fully complete, CalPeco's field inspection and approval shall not be unreasonably withheld. Such approval shall normally be provided no later than (5) business days following CalPeco's inspection.

3.4 CalPeco shall have the right to have its representatives present at the final inspection made by the governmental authority jurisdiction to inspect and approve the installation of the Facility. CG shall notify CalPeco in accordance with the terms of Section 11, herein at least five (5) days prior to such inspection.

3.5 CG authorizes CalPeco to release to the California Energy Commission ("CEC") and the CPUC information regarding CG's Facility, including customer name, location, size, and operational characteristics, as requested from time to time pursuant to the CPUC's and the CEC's rules and regulations.

**4. FACILITY DESIGN REQUIREMENTS**

4.1 CG shall be responsible for the design, installation, and operation of the Facility.

4.2 The Facility shall meet all applicable safety and performance standards established by the National Electrical Code, the Institute of Electrical and Electronics Engineers ("IEEE"), and accredited testing laboratories such as Underwriters Laboratories ("UL"), and, where applicable, rules of the CPUC regarding safety and reliability. This requirement shall include, but not be limited to, the provisions of IEEE Standard 929 and UL Standard 1741.

4.3 CG shall not add generation capacity in excess of the effective AC output rating set forth in the Section 3 of the Declaration to this Agreement, or otherwise modify the Facility without the prior written permission of CalPeco.

**5. MAINTENANCE AND PERMITS**

5.1 CG shall:

(a) Maintain the Facility in a safe and prudent manner and in conformance with all applicable laws and regulations including, but not limited to, Section 4, and

(b) Obtain any governmental authorizations and permits required for the construction and operation of the Facility. CG shall reimburse CalPeco for any and all losses, damages, claims, penalties, or liability it incurs as a result of CG's failure to obtain or maintain any governmental authorizations and permits required for construction and operation of CG's Facility.

5.2 CalPeco shall have the right to review and obtain copies of CG's operations and maintenance records, logs, or other information, pertaining to CG's Facility or its interconnection with CalPeco's distribution system.

**6. ACCESS TO PREMISES**

CalPeco may enter CG's premises for the following purposes:

(a) After giving reasonable notice to CG, to inspect CG's protective devices and read or test meter(s); and,

(b) Without notice to disconnect the Facility and/or service to CG, whenever in CalPeco's sole opinion, a hazardous condition exists and such immediate action is necessary to protect persons, CalPeco's facilities, or property of others from damage or interference caused by the Facility, or the absence or failure of properly operating protective devices.

**7. INDEMNITY AND LIABILITY**

7.1 Each Party as indemnitor shall defend, hold harmless, and indemnify the other Party and the directors, officers, employees, and agents of the other Party against and from any and all loss, liability, damage, claim, cost, charge, demand, or expense (including any direct, indirect or consequential loss, liability, damage, claim, cost, charge, demand, or expense, including attorneys' fees) for injury or death to persons, including employees of either Party, and damage to property, including property of either Party, arising out of or in connection with:

(a) The engineering, design, construction, maintenance, repair, operation, supervision, inspection, testing, protection or ownership of the indemnitor's facilities, or

(b) The making of replacements, additions, betterments to, or reconstruction of the indemnitor's facilities. This indemnity shall apply notwithstanding the active or passive negligence of the indemnitee. However, neither Party shall be indemnified hereunder for its loss, liability, damage, claim, cost, charge, demand, or expense resulting from its sole negligence or willful misconduct.

7.2 The indemnitor shall, on the other Party's request, defend any suit asserting a claim covered by this indemnity and shall pay for all costs, including reasonable attorney fees that may be incurred by the other Party in enforcing this indemnity.

7.3 The provisions of this Section shall not be construed to relieve any insurer of its obligations to pay any insurance claims in accordance with the provisions of any valid insurance policy.

7.4 Except as otherwise provided in Section 7.1, neither Party shall be liable to the other Party for consequential damages incurred by that Party.

7.5 Nothing in this Agreement shall create any duty to, any standard of care with reference to, or any liability to any person who is not a Party to it.
