

MOBILEHOME PARK UTILITY CONVERSION PROGRAM APPLICATION

In accordance with California Public Utilities Commission (CPUC or Commission) Decision (D.) 20-04-004, and subject to the requirements of the Mobilehome Park Utility Conversion Program Rule (MHP Rule¹), the Commission-regulated electric and natural gas utilities (Utilities) are offering a Mobilehome Park Utility Conversion Program (MHP Program) to replace existing privately owned master meter/submeter electric and/or gas distribution service within a Mobilehome Park or Manufactured Housing Communities (MHP), to direct Utility service to each individual MHP space within the MHP.

MHP Owners/Operators who are receiving this Application previously submitted the CPUC Form of Intent during the open application period. After reviewing the information you submitted, the CPUC Safety and Enforcement Division (SED) and/or the California Department of Housing and Community Development (HCD) or its local agency designee has pre-selected your MHP to participate in the MHP Program.

The MHP Owner/Operator must designate below each Utility² that currently provides electric and/or natural gas service to the master meter of the MHP. The designated Utilities will be responsible for the conversion of the existing privately owned master meter/submeter system to direct Utility service, upon acceptance of the MHP into the MHP Program. Under the MHP Program, each Utility will only provide service conversion for the commodity (electricity and/or natural gas) that the Utility currently provides to the MHP. After the completion of the service conversion, the Utility will provide direct service to each individual Mobilehome (MH) space and the MHP common areas. Upon request, the Utility may provide to the MHP a new electric or gas utility service that is not currently being supplied by the Utility, provided that; 1) the Utility offers the requested electric or natural gas service in that territory; 2) a distribution line is located nearby and can be connected safely and economically to the MHP; and 3) the request would be governed by the existing Distribution and Service Extension Rules in the Utility's Tariff and would not be included in the MHP Program.

<u>Electric Service</u>	<u>Natural Gas Service</u>	
<input type="checkbox"/>	N/A	<i>Bear Valley Electric Service</i>
<input type="checkbox"/>	N/A	<i>Liberty Utilities</i> (CalPeco Electric)
<input type="checkbox"/>	N/A	<i>Pacific Power, a Division of PacifiCorp</i>
<input type="checkbox"/>	<input type="checkbox"/>	<i>Pacific Gas and Electric Company</i>
<input type="checkbox"/>	<input type="checkbox"/>	<i>San Diego Gas and Electric Company</i>
<input type="checkbox"/>	N/A	<i>Southern California Edison Company</i>
N/A	<input type="checkbox"/>	<i>Southern California Gas Company</i>
N/A	<input type="checkbox"/>	<i>Southwest Gas Corporation</i>

The purpose of this Mobilehome Park Utility Conversion Program Application (MHP Application) is for the MHP Owner/Operator to provide the Utility pertinent information concerning the MHP, which is necessary in order for the Utility to proceed with the conversion process.

¹ MHP Rule by Utility

Bear Valley Electric – Rule 23

Liberty Utilities – Rule 23

Pacific Gas and Electric – Rule 28

PacifiCorp – Rule 26

San Diego Gas and Electric – Rule 44

Southern California Edison – Rule 27

Southern California Gas – Rule 44

Southwest Gas – Rule 23

² Although the singular term “Utility” is used throughout this Application, each of the Utilities designated on this page is considered a party to this Application. The designated Utilities will be coordinating throughout the application and conversion processes. However, it is the sole responsibility of the MHP Owner/Operator to ensure that the information and documentation required by this Application is provided to each of the designated Utilities within the specified timeframes.

MOBILEHOME PARK UTILITY CONVERSION PROGRAM APPLICATION

MHP Owner/Operator is to use its “best effort” to provide the information that is being requested on this Application. The Utility’s project manager assigned to your park may provide assistance in completing the MHP Application. Incomplete information on this Application will not result in disqualification in the program, but may result in longer engineering time, excavation time and other setbacks that may delay the completion of the project.

THIS APPLICATION MUST BE APPROVED BY THE UTILITY (UTILITIES) BEFORE YOUR MHP WILL BE ACCEPTED INTO THE MHP PROGRAM AND SCHEDULED FOR CONVERSION.

NOTE: Current registration with the California Department of Housing and Community Development for each of individual mobilehome within the MHP may be required prior to inspection and completion of the cutover. If the MHP Program requires that the utility connection of the mobilehome be altered to complete the conversion, the Mobilehome Park Owner/Operator is responsible to obtain such agreement from the registered owner of the mobilehome prior to the alterations being made.

This Application has been developed as part of the CPUC’s regulatory process, and conforms to CPUC D.20-04-004. The Application has been approved by the Commission as a required component of the MHP Program, and may not be waived, altered, amended or modified, except as authorized by the CPUC. This Application at all times shall be subject to such modifications as the CPUC may direct from time to time in the exercise of its jurisdiction.

This Application will be accepted by each of the Utilities listed. Please complete the Application in its entirety, attach all requested documentation, and mail a copy to each of the Utilities that you identified above as providing electric and/or gas service to your MHP. Utility addresses are listed below:

Bear Valley Electric Service
42020 Garstin Drive
P.O. Box 1547

| <input type="checkbox"/> Club House (_____ KW) | <input type="checkbox"/> Area Lighting (_____ KW) |
| <input type="checkbox"/> Sprinkler/Irrigation Controls (must be metered) | <input type="checkbox"/> Park Site (_____ KW) |
| <input type="checkbox"/> Others _____ | (_____ KW) |

Common Use Area Electric Service: # 2 Description: _____

Voltage: _____ Phase: _____ Main Size: _____

- | | |
|--|--|
| <input type="checkbox"/> Lift Station (_____ HP) | <input type="checkbox"/> MHP Office (_____ KW) |
| <input type="checkbox"/> Street Lights (_____ KW) | <input type="checkbox"/> Swimming Pool (_____ KW) |
| <input type="checkbox"/> Club House (_____ KW) | <input type="checkbox"/> Area Lighting (_____ KW) |
| <input type="checkbox"/> Sprinkler/Irrigation Controls (must be metered) | <input type="checkbox"/> Park Site (_____ KW) |
| <input type="checkbox"/> Others _____ | (_____ KW) |

Additional Common Use Area Service - For additional electric common use area service requests use Attachment "B"

3) Streetlighting

- Streetlights to be served under general service rates with common use areas
- Streetlights to be separated from common use load and served unmetered under an applicable Utility streetlight rate schedule as approved by the Utility. Please provide the information for each lamp type that can be found in the MHP in the area below and in Attachment B, if necessary. (check one lamp type).

Lamp Type: # 1

- | | |
|---|--|
| <input type="checkbox"/> High Pressure Sodium Vapor | <input type="checkbox"/> Low Pressure Sodium Vapor |
| <input type="checkbox"/> Mercury Vapor | <input type="checkbox"/> Metal Halide |
| <input type="checkbox"/> Incandescent | <input type="checkbox"/> LED |
| <input type="checkbox"/> Other _____ | |

Watts per lamp: _____ Number of lamps/fixtures: _____

Additional Lamps Types – If the MHP has additional streetlight lamp types, use Attachment "B"

How are streetlights currently served?

- Served directly from Master-meter account
- Served from MH submeter, or MH pedestal
- Direct unmetered connections

Location, lamp type and wattage of each streetlight fixture must be noted on the Site Plan as described in Section 7.5.

4) Self-Generation – Is there currently any self-generation (e.g. photovoltaic or wind generation) equipment servicing the common areas of the MHP?

- Yes (Size of system _____ KW)
- No

MOBILEHOME PARK UTILITY CONVERSION PROGRAM APPLICATION

The MHP Owner/Operator must provide one (1) copy of the following documents along with this Application to each of the Utilities that have been identified on page 1 of this Application as providing electric and/or gas service to your MHP. Please include these documents with your submission of this Application under Attachment A.

- 7.1. List of Residents and Registered Home Owners: A complete list of current registered owners and current residents for each mobilehome/manufactured housing unit on a lot within the MHP, including name, address or space number, home phone number, cell phone number, email address, and other contact information should be provided the Utilities. If all of the necessary resident and registered homeowner contact information cannot be provided when the MHP Owner/Operator submits this Application, the MHP Owner/Operator must, at a minimum, provide a list of addresses of the residents of the MHP and the name and mailing addresses of the registered owners for each mobilehome/manufactured housing unit on a lot within the MHP. This information will be used for outreach activities for the MHP residents. If a complete list of resident and registered homeowner contact information is not provided with the MHP Application, the information must be provided with the submittal of the MHP Agreement
- 7.2. Service Documents: Detailed substructure engineering drawings, as-built drawings, maps, and any other such records as may be necessary to ensure a complete record of the installation and location of the MHP's existing distribution system.
- 7.3. Single Line Diagram: For facilities with Self-Generation provide a single line diagram(s) showing the location of the generation and how it is currently connected to the MHP electrical system.
- 7.4. Additional Infrastructure: Detailed engineering drawings, as-built drawings, maps and any other such records that would provide information on the location of any other utility systems present within the MHP, including but not limited to water, sewer, drainage, irrigation lines, telephone, cable television, data lines and fuel lines.
- 7.5. Site Plan: Detailed drawing of the MHP showing roads, sidewalks, driveways, MHP Space locations, streetlights, sprinkler controls, location of fire hydrants, common area facilities, electric vehicle charging stations, self-generation systems, other structures, and proposed future improvements. For electrical equipment, please provide load information on site plan or reference Common Use Area Service Number(s) found on Section 6 and Attachment B.
- 7.6. Tract Map: Map showing all easements, right-of-ways, property lines, MH-Spaces, assessor's parcel number, etc.
- 7.7. The Utility may request additional documentation if more information is needed for the engineering, planning, and construction phases of the conversion.

MOBILEHOME PARK UTILITY CONVERSION PROGRAM APPLICATION

8. Planning, Engineering and Construction

The Utility shall be allowed to conduct a pre-engineering review and site verification of existing facilities at the MHP.

The Planning, Engineering, and Construction terms and conditions of the MHP Program are detailed in the MHP Agreement. Information regarding Planning, Engineering, and Construction terms and conditions will be given to the MHP Owner/Operator at the time the metering points are provided. The MHP Agreement will contain a preliminary design and construction plan developed by the Utility using the information provided by the MHP Owner/Operator with this Application.

The information provided in the Planning, Engineering, and Construction terms and conditions will enable the MHP Owner/Operator, and their selected Contractor, to develop an appropriate and complete cost estimate of "Beyond-The-Meter" work by outlining roles and responsibilities of the parties involved and defining the "Beyond-The-Meter" work that will be eligible for reimbursement by the Utility under the MHP Program.

9. Application Deadline

The MHP has been pre-selected to receive this MHP Application. The MHP Owner/Operator has forty-five (45) calendar days from the issuance date of this Application, to complete and return the Application, along with all required documentation, to the Utility or Utilities that provide electric and/or gas service to the MHP. If the MHP Owner/Operator fails to provide this Application and the required documentation within the specified time period, the Utility reserves the right to remove or place the MHP in the back of the queue of the pre-selected MHPs. Pre-selection, and/or submittal of Application does not guarantee acceptance into the MHP Program, nor does it guarantee conversion to direct utility service from the Utility.

10. Next Steps

Upon the Utility's review and acceptance of this Application, and the accompanying documentation supplied by the MHP Owner/Operator, the Utility will initiate the engineering and design of the new electric and/or gas distribution system. The Utility will determine the location of the metering points for the MHP and provide this information to the MHP Owner/Operator. The MHP Owner/Operator will then have forty-five (45) calendar days to provide the Utility with the name and qualifications of the Contractor selected to perform the "Beyond-The-Meter" work at the MHP and the estimated cost for such work, in addition to any other documents requested by the Utility. If the MHP Owner/Operator fails to provide the name of the Contractor selected to perform the "Beyond-the-Meter" work within the specified time period, the Utility reserves the right to remove or place the MHP in the back of the queue of the pre-selected MHPs.

THE UTILITY MUST AGREE TO THE QUALIFICATIONS OF THE CONTRACTOR SELECTED BY THE MHP OWNER/OPERATOR. IN THE EVENT THE UTILITY AND THE MHP OWNER/OPERATOR DO NOT AGREE, THEY MUST CONSULT WITH SED TO RESOLVE THE DISPUTE.

MOBILEHOME PARK UTILITY CONVERSION PROGRAM APPLICATION

Cost estimates for the "Beyond-The-Meter" work shall also be summarized to the Utility in a format that uses Attachment C, D and E of the MHP Agreement as a template. The template that will be used for the "Beyond-The-Meter" estimate will be given to the MHP Owner/Operator at the time the metering points are provided.

After the new distribution system has been preliminary engineered and designed, and the Utility has agreed with the name of the Contractor and the estimated cost for the "Beyond-The-Meter" work, the Utility will prepare the MHP Agreement for signatures.

If requested by the Utility or the MHP Owner/Operator, a post engineering meeting can be requested prior to the signing of the MHP Agreement to resolve any outstanding issues and concerns. The Commission requires the Utility and the MHP Owner/Operator to consult and coordinate to ensure efficiency and avoid unnecessary (and non-reimbursable) costs.

After the MHP Agreement is fully executed, permits can be requested and construction can begin.

11. Cancellation of MHP Application

Either the Utility or the MHP Owner/Operator may, at its option, cancel this Application upon 30 days written notice to the other party or parties.

The Utility may cancel this Application for, but not limited to, the following situations: (1) the failure, refusal or inability of the MHP Owner/Operator to perform specified activities and responsibilities set forth in this Application in a timely manner, after receiving notice from the Utility and an opportunity to cure; (2) failure or inability of the MHP Owner/Operator to supply the name of the Contractor who will perform all of the "Beyond-The-Meter" work at the MHP and the estimate cost for such work, within forty-five (45) calendar days from the date that the metering points are sent by the Utility; (3) safety or security issues or violations; or (4) the MHP Owner/Operator and/or their Contractor are involved in a legal proceeding which, in the Utility's opinion, may interfere with the performance of the work.

If the MHP Owner/Operator cancels this Application, the MHP Owner/Operator agrees to reimburse the Utility for all work and costs incurred prior to the cancellation. Such costs may include planning and engineering costs, labor, material and supplies, (including long lead time materials), transportation, and other direct costs which the Utility allocates to such work. In no event shall the Utility be liable for lost or anticipated profits or costs to plan and design the "Beyond-The-Meter" facilities, costs associated to securing a Contractor for the project, or any other costs that did not result in the completion of the service conversion at the MHP.

UTILITY CONVERSION PROGRAM APPLICATION**

12. MHP Owner/Operator Certification

I hereby declare under penalty of perjury that I am the person⁴, or an authorized representative of the entity, that is legally responsible for the MHP, and that the information provided is true and correct to the best of my knowledge. I certify that the MHP Owner/Operator are the distributor of utility service within the MHP, as described above, and that the MHP Owner/Operator has the authority to discontinue their utility service within the MHP as required by the MHP Program. I also certify that I am supplying all of the documentation required under this Application, if available. I have read and agree with the provisions and my responsibilities under the MHP Rule and this Application, including Attachments.

Name of Mobilehome Park

Available

Being
Provided

Documents

List of Registered Homeowners and Residents: A complete list of current registered homeowners and current residents for each mobilehome/manufactured housing unit on the lot within the MHP, including name, address or space number, mailing address if different than physical address of unit, home phone number, cell phone number, email address, and other contact information should be provided to the Utilities. If all of the necessary resident and registered owner contact information cannot be provided, the MHP Owner/Operator must, at a minimum, provide a list of addresses for the residents of the MHP and the name and mailing addresses of the registered owners for each mobilehome/manufactured housing unit on a lot within the MHP. This information will be used for outreach and notification efforts during the project. If a complete list of resident and registered owner contact information is not provided with the MHP Application, the information must be provided with the submittal of the MHP Agreement.

Service Documents: Detailed engineering drawings, as-built drawings, maps, and any other such records as may be necessary to ensure a complete record of the installation and location of the MHP's existing distribution system.

Single Line Diagram: For facilities with Self-Generation provide a single line diagram(s) showing the location of the generation and how it is currently connected to the MHP electrical system.

Additional Infrastructure: Detailed substructure engineering drawings, as-built drawings, maps and any other such records that would provide information on the location of any other utility systems present within the park, including but not limited to water, sewer, drainage, irrigation lines, telephone, cable television, data lines and fuel lines.

Site Plan: Detail scaled drawing of MHP showing roads, sidewalks, driveways, MH-Space locations, streetlights, sprinkler controls, location of fire hydrants, common area facilities, electric vehicle charging stations, self-generation systems, other structures, and proposed future improvements. For electrical equipment, please provide load information on site plan or reference Common Use Area Service Number(s) found on Section 6 and Attachment B.

Tract Map: Map showing all easements, right-of-ways, property lines, MH-Spaces, assessor's parcel number, etc.
