

Save Water Without Changing Your Lifestyle

Water is a limited and precious resource, and it's up to us to use it wisely. Let's work together to **preserve and conserve water** by making it a part of our daily routine.

Replacing an inefficient toilet is a simple, easy solution and it can save more than 10,000 gallons of water each year. The best part is you don't have to change a thing about your lifestyle!

Our **Ultra-High Efficiency Toilet (UHET) Program** offers delivery of toilets that use only 0.8 gallons per flush with a powerful and quiet flush at no-cost to you if you qualify to replace an older, inefficient toilet that may use 1.6 gallons per flush (gpf) or higher.

To find out if you qualify, see reverse side.

LibertyUtilities.com

No-Cost Free Ultra-High-Efficiency Toilet Program

**Replace your old, inefficient toilet with a UHET delivered to your home at no cost.
Call 866-308-8391 today to reserve your ultra-high-efficiency toilet!**

To qualify for the program, all of the following terms and conditions must apply:

- Program available to Liberty customers only.
- Existing toilet must be 1.6 gallons per flush or higher.
- Maximum of two (2) no-cost UHETs per household.
- Customers who participated before and already received two (2) toilets through a similar program are not eligible to participate in this program.
- The program offers delivery of the UHET(s) and installation of up to two (2) toilets for qualifying customers.
- Participants in this program agree to take part in a pre-inspection for qualification conducted by third party authorized by Liberty.
