Advice Letter No. 208-W

Apple Valley Ranchos Water Company (U 346 W) ("AVR") hereby transmits the following revised tariff sheets applicable to water service in its service territory:

This request is made pursuant to Ordering Paragraph No. 1 of D.15-11-030, dated November 19, 2015. The purpose of this filing is to request California Public Utilities Commission ("Commission") authorization to amortize the under-collected balance contained in the California Alternative Rates for Water ("CARW") Revenue Reallocation Balancing Account.

Background and Discussion

AVR's Low-Income Ratepayer Assistance Program was authorized by the Commission in D.05-12-020 and became effective January 1, 2006. The CARW program established for AVR consists of a monthly service charge discount for qualifying customers who meet the income eligibility requirements established annually by the Commission and a surcharge applicable to all non-qualifying customers to fund the CARW program. D.05-12-020 also established the CARW Revenue Reallocation Balancing Account to track the difference between the recorded discounts per month provided by the CARW tariff schedule and the surcharge per month collected through the metered service tariff schedules.

In D.11-05-020, the Commission required water and energy utilities with overlapping service territories to share low-income customer data in an effort to increase the participation rates in water utilities' low-income programs. Pursuant to D.11-05-020, AVR implemented data sharing with Southern California Edison and Southwest Gas in September of 2012. The data sharing program was responsible for a 180% increase in customer participation in the CARW program resulting in a substantial increase to the under-collected balance tracked by the CARW Revenue Reallocation Balancing Account.

PO Box 7002 21760 Ottawa Road Apple Valley, CA 92308 760.247.6484 Ordering Paragraph No. 1 of D.15-11-030 states the following:

1. The Final Settlement Agreement between Apple Valley Ranchos Water Company and the Office of Ratepayer Advocates is adopted without modification. The Final Settlement Agreement is attached as Attachment A to this decision. The Joint Comparison Exhibit is attached as Attachment B to this decision.

Section 19.0 of the settlement adopted by D.15-11-030 (Attachment A) states the following regarding AVR's low-income program:

AVR Water Request:

AVR proposes to continue its existing low-income discount program known as California Alternate Rates for Water ("CARW"). AVR requests continuing this program by increasing the current monthly service charge discount of \$6.69 by the average percentage increase to rates authorized in this proceeding. AVR also proposes the continuation of a surcharge to offset the CARW discounts provided to qualifying customers. AVR requests the Commission authorize the recovery of the under-collection recorded in the CARW Balancing Account as of December 31, 2013 in the amount of \$425,758 through a 12-month temporary surcharge.

ORA Position:

ORA finds AVR's request acceptable and recommends that the Commission adopt AVR's requested changes to the CARW program identified in AVR's application.

Resolution:

The Parties agree that qualifying customers would receive a monthly CARW discount using the methodology described above. Non-qualifying customers, excluding customers receiving non-metered fire sprinkler service, reclaimed water service, construction and other temporary meter service and customers that receive a CARW credit, would be subject to a monthly surcharge using the methodology described above.

The Parties agree that the Commission should authorize the recovery of the undercollection recorded in the CARW Revenue Reallocation Balancing Account in the amount of \$425,758.

The Parties further agree that the CARW Balancing Account continues to be necessary to track the balance of collected surcharges and discounts.

The balance in the CARW Revenue Reallocation Balancing Account at December 31, 2013 was an under-collection of \$425,758. With interest through October of 2015, the under-collected balance in the CARW Revenue Reallocation Balancing Account is \$426,699. The recovery of the balance in the CARW Revenue Reallocation Balancing Account would generate an increase in uncollectible expense and franchise fees expense of \$6,278, above the amounts currently reflected in Park's rates. AVR proposes to recover the under-collection of \$432,977 through a 12-month surcharge of \$2.43 applicable to domestic service for Schedule No. 1, Residential General Metered Service, and Schedule No. 3, Non-Residential General Metered Service. The surcharge is not applicable to residential customers that receive a CARW credit.

The Commission Staff has been provided with workpapers showing the interest calculation in the CARW Revenue Reallocation Balancing Account. The calculation of the surcharge is included in the workpapers.

Pursuant to Water Industry Rule 7.3.1(3) of General Order 96-B, this advice letter is submitted with a Tier 1 designation.

Effective Date
