

RULE NO. 9

Page 1

RENDERING AND PAYMENT OF BILLS

A. Rendering of Bills

Bills for service will be rendered each customer on a monthly or bi-monthly basis at the option of the utility, unless otherwise provided in the rate schedule.

At the customer's request, the utility may be requested to provide either paper or electronic bills for rendered service, but not both.

(N)

The customer may elect to receive and view regular bills for service and other legal and mandated notices electronically and to no longer receive paper bills and legal and mandated notices. Customers requesting this option may be required to complete additional forms and agreements. Legal and mandated notices shall be included with the utility's electronic means of bill delivery; except however, all notices of termination of service shall be made in accordance with Rule No. 8. The customer may discontinue electronic billing upon 30 days prescribed notice.

(N)

1. Metered Service

(L)

- a. Meters will be read at regular intervals for the preparations of periodic bills and as required for the preparation of opening bills, closing bills, and special bills.
- b. The opening bill for metered service will not be less than the established monthly minimum of readiness-to-serve charge for the service. Any amount paid in excess of the prorated charges otherwise applicable to the opening period will be credited against the charge for the succeeding regular billing period, except that no such credit shall accrue if the total period of service is less than one month.
- c. It may not have always been practicable to read meters at intervals which will result in billing period of equal numbers of days.

- (1) Should a monthly billing period contain less than 27 days or more than 33 days a pro rata correction in the amount of the bill will be made.

RULE NO. 9

Page 2

RENDERING AND PAYMENT OF BILLS

- (2) The charge for metered service for a bi-monthly period will be computed by doubling the monthly minimum or readiness-to-serve charge and the number of cubic feet to which each block rate is applicable on a monthly basis. (L)
- (3) For billing periods other than monthly or bi-monthly, adjustments will be made proportionate to that for a monthly billing period.
- d. Bills for metered service will show at least the reading of the meter at the end of the period for which the bill is rendered, the meter constant, if any, the number and kind of units, and date of the current meter reading.
- e. Each meter on a customer's premises will be considered separately and the readings of two or more meters will not be combined except where combination of meter readings is specifically provided for in the applicable rate schedule, or where the utility's operating convenience of necessity may require the use of more than one meter or a battery of meters. In the latter case, the monthly minimum or readiness-to-serve charges will be prorated from the monthly minimum or readiness-to-serve charges of the applicable rate schedule upon the basis of a meter size equivalent in diameter to the total combined discharge areas of such meters.
2. Flat Rate Service
- a. Bills for flat rate service are payable in advance.
- b. The opening bill for flat rate service will be the established monthly charge for the service. Any amount paid in excess of the prorated charges otherwise applicable to the opening period will be credited against the charge for the succeeding regular billing period, except that no such credit shall accrue if the total period of service is less than one month.
- c. For billing periods other than monthly, the charge for flat rate service will be computed by multiplying the monthly charge by the number of months in the billing period. (L)

RENDERING AND PAYMENT OF BILLS

3. Proration of Bills

a. The charges applicable to opening periods, closing bills, and bills rendered for periods corresponding to less than 27 days or more than 33 days for monthly billing periods will be computed as follows:

(1) Metered Service

The amount of the minimum charge (and the quantity allowed therefore) or the readiness-to-serve charge and the quantity in each of the several quantity rate blocks will be prorated on the basis of the ratio of the number of days in the period to the number of days in an average billing period. The measured quantity of usage will be applied to such prorated amounts and quantities.

(2) Flat Rate Service

The billing period charge will be prorated on the basis of the ratio of the number of days in the period to the number of days in an average billing period.

(3) Average Billing Period

The number of days in an average billing period is defined as 365 divided by the number of billing periods in a year. (It is 30.4 days for a monthly billing period.)

B. Payment of Bills

Bills for service are due and payable upon presentation and payment may be made at any commercial office of the utility or to any representative of the utility authorized to make collections. Collection of closing bills may be made at the time of presentation.

1. The utility may charge \$12.00 for any bad check or electronic fund transfer not honored by the customer's financial institution or a payment processor.

RENDERING AND PAYMENT OF BILLS

B. Payment of Bills (continued)

2. Credit/Debit Card Option

At the option of the customer a credit or debit card payment can be made through a third party vendor. For residential customers, a non-refundable convenience fee of \$1.75 per transaction shall apply. For commercial customers, a non-refundable convenience fee of \$7.75 per transaction shall apply. The transaction fee will be over and above the utility bill amount and may be charged to the customer by a third party vendor for this service and will note on the utility billing statement. For customers with more than one account, a separate transaction fee is necessary for each account. This payment option is not available to customers who have made fraudulent payments within the last 12 months.
