Summary

This advice letter filing requests authorization to implement a temporary surcharge to the water rates in Liberty Apple Valley's Service Area. Liberty Apple Valley is seeking a temporary surcharge of \$0.065 per Ccf for domestic metered customers for a 12-month period. The surcharge is designed to recover the combined under-collection recorded in the 2016 Water Revenue Adjustment Mechanism (WRAM) Account and the Modified Production Cost Balancing Account (MCBA). This request is made pursuant to the Commission's direction in Decision 08-02-036, dated February 28, 2008 and Decision 12-04-048 dated April 19, 2012.

Background and Discussion

In D.08-09-026, dated September 18, 2008, the Commission adopted the Settlement Agreement between AVR and the Division of Ratepayer Advocates (DRA) dated June 20, 2008 in proceeding A.08-01-002. D.08-09-026 adopted a program for AVR consisting of a conservation rate design and related mechanisms for decoupling sales and revenue (WRAM and MCBA). The

WRAM and MCBA were effective January 1, 2009, the effective date of D.08-09-026. In D.12-04-048 the Commission modified D.08-09-026 by authorizing an 18-month amortization schedule for the net balance recorded in the WRAM and MCBA.

The purpose of the WRAM is to track the difference between adopted and actual commodity rate revenue excluding revenue for fire service, miscellaneous fees, and gravity irrigation water service. The purpose of the MCBA is to track the difference between adopted and actual costs for the following variable costs: purchased power, leased water rights, replenishment assessments (pump tax), and chemicals. The MCBA captures variations in production costs due to either changes in unit price or changes in consumption.

Liberty Apple Valley provides domestic water service from its wells that are located within the Mojave Ground Water Basin. The Mojave Water Agency (MWA), the water master of the Mojave Basin, in accordance with the terms of the adjudication of that basin, uses a "water year" that runs from October 1 to September 30. Because of the retroactive calculation methodology used by the MWA to administer the adjudication and levy replacement water (leased water rights) and replenishment assessments, actual amounts are currently unavailable for the 2016-2017 water year and therefore the leased water rights and make-up assessment balances recorded in the MCBA for calendar year 2016 are estimated. Liberty Apple Valley will true-up the estimated balance of leased water rights and the make-up assessment recorded in the MCBA for calendar year 2016 in a future advice letter filing that requests amortization of the combined balance recorded in the WRAM and MCBA for calendar year 2017.

Liberty Apple Valley filed an information-only report with the Division of Water and Audits on November 30, 2016 detailing the WRAM and MCBA data for nine months ending September 30, 2016. In that report, Liberty Apple Valley indicated that the WRAM includes an adjustment for the Interim Rates Memorandum Account authorized by D.15-11-030. The purpose of this adjustment is to ensure that the commodity revenues tracked in the Interim Rates Memorandum Account are excluded from the WRAM. In addition, the WRAM contains an adjustment for the Drought Emergency Surcharges authorized in Advice Letter 197-W pursuant to the state mandated water use reduction in Schedule 14.1. The Drought Emergency Surcharges collected is used to offset the under-collected revenues in the WRAM. As compared to the information-only report, this filing includes an updated twelve months of WRAM and MCBA data, ending December 31, 2016, with a total net under-collected balance of \$244,316. With interest through February 28 2017, the total net balance is \$245,482.

As described in Advice Letter 217-W, the make-up assessment and the leased water rights balances recorded in the MCBA for calendar year 2015 were estimated. In this advice letter, Liberty Apple Valley proposes to true-up the balances of the leased water rights and make-up

expense recorded in the MCBA to the extent possible. The make-up expense and leased water rights expense for the 2015-2016 water year has been finalized and were revised to reflect the actual. The total adjustment was \$204. With interest through February 28, 2017, the total adjustment was \$846.

Liberty Apple Valley proposes to combine the above balances for a total under-collection of \$245,482. Liberty Apple Valley is therefore requesting recovery of \$245,482 or 1.02% of its 2017 adopted revenue requirements for the domestic system. Liberty Apple Valley proposes to recover the under-collection through a 12-month surcharge of \$0.065 per Ccf applicable to domestic service for Schedule No. 1, residential general metered service, and Schedule No. 3, non-residential general metered service.

The Commission Staff has been provided with workpapers developing the balances described above. The calculation of the surcharge is included in the workpapers.

Tier Designation

Pursuant to D.07-01-024, this advice letter is submitted with a Tier 1 designation.

Requested Effective Date

Pursuant to General Rule 7.3.2 of General Order 96-B, Liberty Apple Valley requests this filing become effective May 1, 2016.

Notice and Service

In accordance with General Order 96-B, General Rules 4.3 and 7.2 and Water Industry Rule 4.1, a copy of this advice letter will be mailed or electronically transmitted on April 13, 2017 to competing and adjacent utilities and other utilities or interested parties having requested such notification.

In accordance with Resolution W-4664, notice is not required. Liberty Apple Valley will include notice of the rate within the bill during the first billing period the increase is in effect.
