

Liberty Utilities®

November 2015

REDUCE ENERGY AND SAVE MONEY

Winter is the time Liberty Utilities customers consume the most energy. That can mean higher bills, but you can take some simple, no-cost steps to reduce use AND save 10-25% on your bill.

- Set your thermostat to 68 degrees when home, and then back to 55-68 degrees when unoccupied.
- Open window coverings on the sunny side of your home to take advantage of free heat from the sun.
- Close foundation vents.
- Turn off lights and appliances when not in use, including your computer.
- Vacuum your refrigerator coils, underneath and in the back.

For more tips and to sign up for a free energy audit, visit www.libertyutilities.com/west and click on the “Save Energy and Money” link.

Important Reminder:
Please keep your meter clear from snow so it can be read.

GRAB A \$35 RECYCLING REBATE!

Old model refrigerators and freezers (especially those built prior to 1998) may use up to four times the energy of newer models.

Save up to \$140 a year on your energy bills!

Save time, money and energy when we pick-up and recycle your old working refrigerator or freezer at no cost and give you a \$35 rebate.

Schedule a pick-up today

1-530-550-0110

(Truckee Hometown Sears)
