- b) How egress risk is factored into decision making regarding system hardening; and
- c) How egress risk is weighted against other factors in decision making regarding system hardening.

RESPONSE TO REQUEST NO. 2:

- a) In addition to considering internal subject matter expert (SME) knowledge of local areas and evacuation routes, Liberty works with its Public Safety Partners and community organizations to identify locations where egress risk is important.

- b) If the answer to part (a) is yes, please provide this list.

RESPONSE TO REQUEST NO. 3

- a) No. While Liberty does not hold local responsibilities for developing lists of egress-constrained communities, Liberty does collaborate with its Public Safety Partners in community evacuation planning. - b) N/A.
