2. Utility shall not be required to make investments in new installations in excess of the following:

<u>Lamp Size</u>	<u>(a) Existing Pole</u>	<u>(b) New Wood Pole</u>	<u>(c) New Metal Pole</u>

3. Relocation of existing lights will be done by the Utility upon customer's request provided the customer reimburses the Utility for net expenses incurred.
4. Billing.
 - A. Bundled Service Customers receive supply and delivery services solely from the Utility. The customer's bill is based on the Total Energy Rate set forth above. The energy supply component is determined by multiplying the offset rate for Schedule D-1 during the last month by the customer's total usage.
 - B. Direct Access Customers purchase energy from an energy service provider and continue receiving delivery services from CalPeco. The energy supply component is determined as specified for a Bundled Service Customer. The bill will be calculated as for a Bundled Service Customer, but the customer will receive a credit for the energy supply component. If the energy supply component is greater than the amount of the Bundled Service bill, the minimum bill for a Direct Access Customer is zero.
