SPECIAL CONDITIONS

- 1. Except for separately metered water hearing, meter readings shall not be combined for billing hereunder.

- 3. Utility retains the right to change its line voltage at any time, after reasonable advance notice to any customer receiving a Voltage and Transformer Adjustment. Such customer then has the option to change his system so as to receive service at the new line voltage or to accept service (without discount) through transformers to be supplied by Utility.
- 4. Utility may require a contract for service hereunder for a minimum term of not less than one year.
- 5. Rate schedules shall be assigned by Utility annually, based on a review of demand history. Customers whose estimated and/or metered monthly demand exceeds 200 kilowatts for any three months during the twelve month review period will be billed under Schedule No. A-3 for the subsequent twelve month period. Changes in customer operations, as brought to the attention of Utility, shall be considered as basis for mid-year rate changes. Any change in rate, whether resulting from annual review or change in customer operations, will be prospective only, except that Utility errors in reviewing demands annually shall be grounds for retroactive billing adjustment where such adjustment results in a refund or credit to the customer. See Rule Nos. 3 and 12 applicable to optional rates and change in customers equipment or operations.
