**Advice Letter 184-E
(U 933-E)**

California Public Utilities Commission
Energy Division, Tariff Unit
505 Van Ness Avenue, 4th Floor
San Francisco, CA 94102-3298

Subject: Modification for Small Business Schedules from Volumetric to Flat Climate Credit per Decision 21-08-026

Purpose

Liberty Utilities (CalPeco Electric) LLC (U 933-E) (“Liberty”) submits this Tier 1 Advice Letter to set the volumetric rates to zero for the California Climate Credit in Section 20, Greenhouse Gas Revenue Balancing Account (“GHGRBA”). This change is being requested in accordance with California Public Utilities Commission (“Commission”) Decision (D.) 21-08-026. The affected tariff sheet is included in Attachment A.

Background

The Commission’s Rulemaking (R.) 20-05-002 reviewed electric utility customer climate credits provided through the California Air Resources Board’s (CARB’s) Cap-and-Trade Program. As a result, the Commission issued D.21-08-026 modified the Small Business California Climate Credit from the current volumetric format to a flat rate format to align with CARB Regulation, with the timing of distribution mirroring the semi-annual Residential California Climate Credit.

This advice letter requests to modify the company’s existing California Climate Credit rate and set the Small Business volumetric climate credit to zero starting January 1, 2022. Simultaneously, the company anticipates filing early in 2022 for an update to this tariff to implement the per-customer, semi-annual Small Business California Climate Credit upon approval of the company’s 2022 California Climate Credit in its Energy Cost Adjustment Clause (ECAC) proceeding, filed under Application (A.) 21-08-003. Liberty is anticipating receiving approval and making a compliance filing for this additional change in time for both residential and small business customers to receive the flat California Climate Credit starting in April 2022. Turning off the volumetric Small Business California Climate Credit beginning January 1, 2022

in conjunction with beginning the distribution of the semi-annual per-customer Small Business California Climate Credit in April 2022 will result in the proper, Commission-approved distribution of the California Climate Credit to small business customers starting in 2022.

Effective Date

Liberty requests that this Tier 1 advice letter be effective as of January 1, 2022.

Protests

Anyone wishing to protest this Advice Letter may do so by letter sent via U.S. mail, by facsimile or by email, any of which must be received no later than January 19, 2022, which is 20 days after the date of this Advice Letter. There are no restrictions on who may submit a protest, but the protest shall set forth the grounds upon which it is based and shall be submitted expeditiously.

Protests should be mailed to:

California Public Utilities Commission

505 Van Ness Avenue, 4th Floor
San Francisco, CA 94102-3298
Facsimile: (415) 703-2200
Email: edtariffunit@cpuc.ca.gov

The protest should be sent via email and U.S. Mail to Liberty at the address shown below on the same date it is mailed or delivered to the Commission:

ATTACHMENT A

Modification for Small Business Schedules from Volumetric to Flat Climate Credit per Decision 21-08-026

20. GREENHOUSE GAS REVENUE BALANCING ACCOUNT (GHGRBA)
(continued)

iv. CHANGES IN RATES

(1) Continued

The cost and revenue balances accumulated in the GHG cost sub-account and the GHG Revenue Balancing Account will be amortized so that all deferred costs are recovered and all deferred revenues are distributed within 24 months.

(2) Carbon Pollution Permit Cost

Beginning on July 1, 2020 Liberty Utilities will include on all customer bills a charge to reimburse Liberty Utilities for costs incurred and estimated to incur to remain compliance with Decision 20-05-044. This cost is applicable to all customer classes. It is based on monthly kilowatt usage and will be at a rate of \$0.00637 per kilowatt hour.

This cost will be updated minimally on an annual basis.

(3) California (CA) Climate Credit

Beginning on July 1, 2020 Liberty Utilities will issue a California Climate Credit in compliance with Decision 20-05-044. There are three customer sub-classes that are eligible for the credit.

a. Emission-Intense and Trade-Exposed (EITE) Customers

Customers in this sub-class meet the California Air Resource Board's leakage risk Industry Assistance definition as adopted in ARB's Cap-and-Trade program. The credit amount will be calculated pursuant to Decision 12-12-033.

b. Small Businesses

Small business is defined as non-residential entities on a General Service or Agricultural tariffs whose electric demand does not exceed 20 kilowatts in more than three months of the proceeding twelve month period. Eligibility will be determined during Liberty Utilities' annual rate migration process and remain in effect until the next migration process.

The credit is (\$0.00) per kilowatt hour. The credit will be calculated as the **(R)**
the (Carbon Pollution Permit Cost x monthly usage x the Industry Assistance factor).
The Industry Assistance factor are located in Appendix 2, Table 1 of Decision 13-12-041.
