

How to read your utility bill

Whether you receive your bill in the mail or electronically, it contains important information about the electricity you use. Please take a moment to learn about the charges, rates and other useful information included with each bill.

Here's where you'll find the **customer name**, **service address** and your **account number**.

How much do you owe and **when is it due?** You'll find that right here.

This section of the bill is a great way to **track your usage**. Compare the current 12 months with the previous 12 months and see your average daily usage. The more you know about your usage, the better you can plan and manage it.

If **paying by mail**, please detach and **return the bottom of the bill** with your payment.

Electric Industry Definitions

Generation Charge: The non-fuel costs related to the operation and maintenance of Liberty electric generating facilities.

Energy Cost Adjustment Clause (ECAC) Charge: The current cost associated with fuel and power purchases. Liberty produces power with its generating plants and purchases power from wholesale suppliers and delivers that power to customers.

ECAC Amortization Charge: The under- or over-recovery of prior period fuel and power costs incurred by the company on behalf of its customers.

Distribution Charge: The costs associated with transporting electricity from your neighborhood to your home or business.

Public Purpose Program (PPP): These costs support state-mandated programs for low-income assistance and energy efficiency.

California Customers

Regular bills for service are rendered on a monthly basis and are due and payable upon presentation, which is considered to be two (2) days after mailing. Payment should be mailed or made at the Liberty Customer Business Office or authorized agent payment station.

Current charges become PAST DUE seventeen (17) days after the regular monthly bill is mailed. A termination of Service notice may be issued if payment has not been received within two (2) working days after the Past Due Date indicated on the billing statement.

If you are unable to pay your bill, call Liberty at 800-782-2506 or visit our website at libertyenergyandwater.com. We can connect you with community agencies that may be able to provide additional assistance to you. If you are a residential customer, you may qualify for programs such as Liberty's CARE program, that can help reduce your bill, or Liberty's energy assistance program which is an energy efficiency program for income-qualified customers.

Other Information

General Correspondence

Please remember to include your name, 12-digit account number, service address, mailing address and phone number including the area code, on any correspondence to us. Contact us if you have had a change in mailing address or name, or you may be billed even after a move.

Mail to:
Liberty
933 Eloise Ave
South Lake Tahoe, CA 96150

Dispute Resolution

Should you question this bill, please request an explanation from the Utility. A complaint or investigation request initiated within five (5) days of receipt of the contested bill will be reviewed by the Company, during which time consideration will be given to allow amortization of the unpaid balance over a reasonable period of time. If you thereafter believe you have been billed incorrectly, or disagree with the Company's disposition of your complaint or dispute, the amount of the bill should be deposited with the California Public Utilities Commission, 505 Van Ness Avenue, San Francisco, California 94102, or telephone (415) 703-1170 or 1-800-649-7570, to avoid discontinuance of service. Make remittance payable to the California Public Utilities Commission and attach the bill and a statement supporting your belief that the bill is not correct. The Commission will review the basis of the billed amount and make disbursement in accordance with its findings. The Commission WILL NOT, however, accept deposits when the dispute appears to be over matters that do not directly relate to the accuracy of the bill. Such matters include the quality of a utilities service, general level of rates, pending rate applications and sources of fuel or power.

Billing Programs

Budget Billing (BBP)/Levelized Budget Billing (LVL)

Allows you to spread out payments over the year, avoiding high and low fluctuations in your monthly bill. The statement will also show the difference between Budget/Levelized Budget Billing and Actual Charges to Date otherwise known as Settlement Amount.

Installment Plan

An extended payment plan where past-due bills may be paid in installments over a specific time period. The statement will also show the remaining Installment Plan amount to be billed.

Here you'll find the **billing period** and the **number of days included** in this bill. Typically we bill for 30 days of service each month but in some cases your bill may have as few as 28 and as many as 33 days included.

Total Amount Due **\$ 161.92**

Current Charges

Customer Charge - A flat fee that covers costs related to the meter and fixed administrative costs, such as meter reading, and billing data processing.

Base Revenue Requirement Balancing Act (BRRBA) - BRRBA is the difference between Liberty's authorized annual base rate revenue requirements and the annual recorded revenue from base rates as set by the CPUC. Adjustments are required to amortize under collections or over collections in the BRRBA authorized by the commission from time to time. This charge is based on usage.

Carbon Pollution Permit Cost - This is the charge to recover Liberty's Greenhouse Gas compliance obligation costs under California's Cap-and-Trade Program. This charge is based on usage.

Distribution Charge - This charge recovers costs for infrastructure used to deliver electricity from the transmission system to a customer's premises, including expenses for operation and maintenance. This charge is based on usage.

Energy Cost Adjustment Clause (ECAC) - The current cost associated with fuel and power purchases. Liberty produces power from its generating plants and purchases power from wholesale suppliers and delivers that power to customers. This charge is based on usage.

Continued...

ECAC Amortization - The under (or over) recovery of prior period fuel and power costs incurred by the company on behalf of its customers. This charge is based on usage.

Generation Charge - This charge is for the non-fuel costs related to the operation and maintenance of Liberty's electric generating facilities. This charge is based on usage.

General Rate Case Memorandum Account - This charge is temporary and will end once the revenue allowed by the CPUC in the current Rate Case is collected from the timeframe allowed but before it was approved by the commission.

Public Purpose Programs - This charge is to fund programs that were created by the California Legislature to benefit society, like energy efficiency and low-income ratepayer assistance programs. This charge is based on usage.

Continued...

Solar Initiative Program - The SIP balancing account is to record the difference between the Solar Initiative Program revenue requirement and Liberty's Solar Initiative Program expense. This charge is based on usage.

Surcharge CEC - A surcharge collected and passed through to the California Energy Commission. The surcharge is based on electric usage during a billing period.

Surcharge CPUC - This surcharge applies to all electric customers, with the exceptions of interdepartmental sales or transfers and sales to electric public utilities. In 1983 the Legislature established the Public Utilities Commission Reimbursement Fee to be paid by utilities to fund their regulation by the Commission. The surcharge is to recover the cost of that fee. This charge is based on usage.
