

# How to read your utility bill

Whether you receive your bill in the mail or electronically, it contains important information about the electricity you use. Please take a moment to learn about the charges, rates and other useful information included with each bill.

Here's where you'll find the **customer name, service address** and your **account number**.

How much do you owe and when is it due? You'll find that right here.

This section of the bill is a great way to **track your usage**. Compare the current 12 months with the previous 12 months and see your average daily usage. The more you know about your usage, the better you can plan and manage it.

If **paying by mail**, please detach and **return the bottom of the bill** with your payment.

energy and water for life
