

# News for the new year

## A 'bright idea' for the new year

Start the year off right with a simple change that makes life easier. **Sign up for Liberty's My Account and enroll in Paperless Billing today to enjoy:**

- More convenience – access your bills anytime, anywhere with the app. Pro tip: combine Paperless Billing with automatic payments for even more peace of mind.
- Secure and timely account information – get alerted when your bill is ready and pay it easily (and safely) through My Account.
- Less clutter – no more stacks of paper.

Make 2026 the year of simplicity. Start with My Account and **switch to Paperless Billing** now. It's one resolution you won't regret!

Visit [www.libertyenergyandwater.com](http://www.libertyenergyandwater.com) or **scan the QR code** to get started with My Account and Paperless Billing.

Looking for more ways to start 2026 off on the right foot? **Keep reading to learn some simple energy (and money) saving tips.**

## New year, new habits, new ways to save

The New Year is a great time to start forming new habits, especially those that may help you save on your utility bills. Here are some simple steps you can take to form lasting habits that can help you save throughout the year.

### **Switch to LED light bulbs rather than incandescent.**

LEDs are more efficient, and those that are ENERGY STAR certified use about 75% less energy than incandescent bulbs.

**Turn off lights and appliances** when you're not using them. One way to do so is by using a timer, which is low cost and easy-to-install.

**Lower your water heater** to 120°F. This can help save energy as well as prevent serious burns.

**Check for air leaks** regularly and properly insulate against them.

**Install a programmable thermostat** to adjust the times you turn on your air conditioning or heating based on a pre-set schedule.

The tips don't stop here. **Scan the QR code** or visit the "Smart Energy Use" section of [www.libertyenergyandwater.com](http://www.libertyenergyandwater.com) for more ways you can kick your energy-saving game up a notch or two in the new year.
