# **Discussion**

This Advice Letter updates various rates found within Liberty CalPeco's associated tariffs. The following changes are being made to the respective tariff pages/rates:

Energy Division Tariff Unit California Public Utilities Commission January 12, 2019 Page 2

- 1. <u>California Alternate Rates for Energy (CARE) Surcharge Provision</u>. The revisions to the CARE rate reflect a decrease from the current amount of \$0.00200/kWh to \$0.00154/kWh for all applicable rate schedules.
- 2. <u>Energy Savings Assistance (ESA) Program.</u> The rate for the ESA Program, which is included in the Public Purpose Programs charge, is set to increase from a rate of \$0.00038/kWh to \$0.00124/kWh.
- 3. <u>General Rate Case Memorandum Account (GRCMA)</u>. As stated in the Account Disposition section of the GRCMA Preliminary Statement, recovery costs for the shortfall or over-collection of the difference resulting from the difference in general rates effective December 31, 2015 and the final rates authorized by the Commission in Application (A.) 15-05-008 are set to cease as of December 31, 2018. The balance of the account post December 31, 2018 will be addressed in Liberty CalPeco's instant GRC filing. The new rate will be \$0.00000/kWh until further addressed in the GRC.
- 4. <u>Catastrophic Event Memorandum Account (CEMA)</u>. As stated in Commission decision D.16-12-024 regarding Liberty CalPeco's last GRC Application A.15-05-008, CEMA cost recovery is stated to cease on December 31, 2018. The CEMA costs were related to the late-2014 early-2015 drought-related risk mitigation on the order of \$2.1M in total. The new rate will be \$0.00000.
