

PRELIMINARY STATEMENT

(Continued)

5. GENERAL

A. Measurement

Measurement of Electric Energy: All electric energy as supplied by the Liberty Utilities (CalPeco Electric) LLC ("Liberty") to its customers shall be measured by means of suitable standard electric meters, except energy delivered under street lighting tariffs on a rate-per-lamp basis, and energy, estimated from load and operating time data, for highway sign lighting, traffic control, and other installations where metering is impractical.

B. Discounts

No discounts are allowed from bills, or minimum charges, except as specifically provided in certain schedules.

6. ENERGY COST ADJUSTMENT CLAUSE (ECAC)

A. Purpose

The purpose of the Energy Cost Adjustment Clause (ECAC) is to reflect in rates: (1) the cost of fuel and purchased power, and (2) certain other energy-related costs.

B. Applicability

The Energy Cost Adjustment Clause is applicable to all rate schedules.

C. Revision Date

The Revision Date for calculating the Energy Cost Adjustment Clause Billing Factors (ECACBFs) will be January 1 following a calendar year in which the Company did not submit a General Rate Case application filing, or on such other dates as the Commission may authorize. In calendar years in which the Company files a General Rate Case application, Liberty will revise the ECACBFs concurrently with, and as part of, revisions to Base Rates as a result of its General Rate Case application.

Applications for ECACBF revisions calculated in accordance with the provisions described herein shall be filed with the California Public Utilities Commission annually on July 1 in calendar years in which the Company is not submitting a General Rate Case application.
