

WATER CONSERVATION RESOURCES

Liberty Utilities

Water is a precious resource in California, considering our state's vulnerability to dry weather periods and drought.

It's important that we all work together to make water conservation a way of life. Here are some suggestions to improve your water-use efficiency:

REGIONAL REBATES FOR WATER SAVING DEVICES

1. Go to www.socalwatersmart.com and find qualifying products and start a rebate application.
2. Purchase a qualifying product.
3. Complete the online rebate application at www.socalwatersmart.com.

FLOW SENSING SHUTOFF DEVICE

An automatic water shut-off valve detects water either by monitoring flows in the pipe or by detecting water on the floor. When flow is irregular or moisture is detected, the valve will shut off the water supply to your home. (\$75 each)

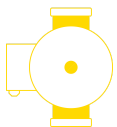

SPEAK WITH OUR WATER CONSERVATION COORDINATOR

Call 562-299-5126 or visit conservation@libertyutilities.com to learn more about the conservation programs and resources available in your area.

SPRAY TO DRIP IRRIGATION

Convert traditional spray sprinkler systems to drip irrigation and help eliminate runoff, blockage and overspray. (\$0.20 per sq. ft.)

HOT WATER RECIRCULATION SYSTEM

Recirculating pumps provide hot water to your tap on demand, eliminating the water waste incurred when waiting for water to warm up. (\$33 each)

REGIONAL REBATES

WATER SAVING DEVICES	MAX POTENTIAL REBATE*
High-Efficiency Clothes Washer	\$85.00
Rain barrel	\$35.00
Premium High-Efficiency Toilet	\$40.00
Rotating sprinkler nozzles	\$2.00
Weather Based Irrigation Controller (properties less than 1 acre)	\$80.00
Weather Based Irrigation Controller (properties one irrigated acre or larger)	\$35.00 per station
Landscape Transformation (Turf Removal)	\$2.00 per sq. ft. (max 5,000 sq. ft.)
Cistern (200 - 500 gal.)	\$250.00
Cistern (501 - 999 gal.)	\$300.00
Cistern (1000+ gal.)	\$350.00

***AMOUNTS ARE SUBJECT TO CHANGE!**

TURF REMOVAL FUNDING IS NOW AVAILABLE!
