**Why am I receiving this notice?**

On July 2, 2021, Liberty Park Water filed its GRC application with the CPUC. The application requests to increase rates over a three-year period, covering the years 2022 through 2024. If approved, this request to increase rates would be effective beginning July 1, 2022.

**Why is Liberty Park Water requesting this rate increase?**

The CPUC requires Liberty Park Water to submit a GRC application every three years. Liberty Park Water is requesting authorization to increase revenues by \$5,475,273 (or 15.10%) in 2022, \$1,820,970 (or 4.35%) in 2023, and \$1,752,224 (or 4.00%) in 2024. The total requested increase for all three years combined would be \$9,048,468 (or 23.45%).

The purpose of this GRC is for Liberty Park Water to cover its anticipated costs from 2022 through 2024 for improvements to the water supply system, property taxes, pension and benefits expense, depreciation expense, and costs for centralized corporate support services, such as financial, accounting, treasury and human resources.

**How could this affect my monthly water rates?**

If the proposed application is approved by the CPUC, the average residential customer with a 5/8 x 3/4" meter using 8.75 Ccf would see a monthly bill increase of \$10.80 (or 14.25%) from \$75.78 to \$86.58 in 2022. In 2023 the average residential customer would see a monthly bill increase of \$3.72 (or 4.30%), from \$86.58 to \$90.31, and in 2024 a monthly bill increase of \$3.56 (or 3.94%), from \$90.31 to \$93.86, excluding any applicable surcharges.
