

Wildfire Mitigation and Public Safety Power Shutoffs (PSPS) Workshops

Please join Liberty at our virtual workshops to learn more about our wildfire mitigation efforts and the actions Liberty is taking to limit wildfire risks from electrical infrastructure.

We will also be discussing other topics as they relate to wildfire mitigation strategies, including:

- Infrastructure hardening and improvements
- Importance of vegetation management
- Public Safety Power Shutoffs
 - PSPS criteria and factors
 - Weather monitoring
 - How Liberty will communicate and where information will be found
 - How to prepare for the potential of a PSPS
- Community Resource Centers (CRCs)
