Summary

This advice letter filing requests authorization to implement a temporary surcharge to the water rates in Park's Service Area. Park is seeking a temporary surcharge of \$0.276 per Ccf for domestic metered customers for a 18-month period. The purpose of the surcharge is to recover the combined under-collection recorded in the Water Revenue Adjustment Mechanism (WRAM) Balancing Account and the Modified Production Cost Balancing Account (MCBA) for the period January 1, 2011 through December 31, 2011. Park is also seeking a temporary surcharge of \$0.026 per Ccf for recycled customers for a 12-month period. The purpose of the surcharge is to recover the under-collection recorded balance in the Incremental Cost Balancing Account (ICBA) for the period January 1, 2011 through December 31, 2011. This request is made pursuant to the Commission's direction in Decision 08-02-036, dated February 28, 2008, and Decision 12-04-048 dated April 19, 2012.

Background and Discussion

In D.08-02-036 the Commission adopted the Settlement Agreement between Park and the Division of Ratepayer Advocates (DRA) on WRAM and Conservation Rate Design Issues dated June 15, 2007. D.08-02-036 adopted a Trial Program for Park consisting of a conservation rate design and related mechanisms for decoupling sales and revenue (WRAM and MCBA). The Trial Program was implemented on September 15, 2008 with Commission approval of Park Advice Letter No. 200-W. In D.12-04-048 the Commission modified D.08-02-026 by authorizing an 18-month amortization schedule for the net balance recorded in the WRAM and MCBA during 2011.

The purpose of the WRAM is to track the difference between adopted and actual commodity rate revenue excluding revenue for fire service, reclaimed water, and miscellaneous fees. The purpose of the MCBA is to track the difference between adopted and actual costs for the following variable costs: purchased water, purchased power, and pump tax. The MCBA captures variations in production costs due to either changes in unit price or changes in consumption.

The combined balance recorded in the WRAM and MCBA for the period January 1, 2011 through December 31, 2011, including interest through March 31, 2012, is an under-collection of \$2,468,924 which is 8.57% of Park's 2012 revenue requirement. D.12-04-048 adopted a 2.0% trigger for WRAM and MCBA balance amortization and also required that the advice letters requesting amortization of the 2011 account balances be made by May 19, 2012.

Park filed an information-only report with the Division of Water and Audits for the amounts recorded in the WRAM and MCBA during calendar year 2011 on March 9, 2012. In that report, Park indicated that the combined balance of the WRAM and MCBA is an under-collection of \$2,467,915 that exceeds the 2.0% threshold for recovery. With interest through March 31, 2012, the under-collection is \$2,468,924.

The total balance recorded in the ICBA for the period January 1, 2011 through December 31, 2011, including interest through March 31, 2012, is an under-collection of \$4,637.

The combined balance recorded in the WRAM, MCBA and ICBA for the period January 1, 2011 through December 31, 2011, is an under-collection of \$2,473,561 which is 8.42% of Park's 2012 revenue requirement. Park is requesting recovery of \$2,468,924 or 8.57% for potable water and \$4,637 or 0.81% for recycled water of its adopted 2012 revenue requirement. Park proposes to recover the under-collection recorded in the WRAM and MCBA through a 18-month surcharge of \$0.276 per Ccf applicable to domestic service for schedules PR-1-R, residential metered service and PR-1-NR, non-residential metered service. Park proposes to recover the under-collection recorded in the ICB through a 12-month surcharge of \$0.026 per Ccf applicable to recycled water for schedule PR-6.

The Commission Staff has been provided with workpapers developing the balances in the WRAM, MCBA, and the ICBA. The calculation of the surcharges is included in the workpapers.
