## SLIP/SUB SHEET

Advice Letter No. 269-W-A

## SUPPLEMENT

May 18, 2016

TO THE PUBLIC UTILITIES COMMISSION OF THE STATE OF CALIFORNIA  
Liberty Utilities (Park Water) Corp. (U 314 W) ("Liberty Park Water") f/k/a Park Water Company ("Park") hereby transmits the following revised tariff sheets applicable to water service in its service territory:

Calif. P.U.C. Sheet No.	Title of Sheet	Canceling Sheet No.
1310-W	Preliminary Statement, Part T	1295-W
1311-W	Preliminary Statement, Part T (continued)	1172-W
1312-W	Residential Metered Service, page 2	1299-W
1313-W	Non-Residential Metered Service, page 2	1300-W
1314-W	Non-Metered Fire Sprinkler Service, page 2	1301-W
1315-W	Table of Contents, page 1	1303-W

This supplemental filing is being made to incorporate changes as discussed with the Division of Water and Audits. This supplemental filing will replace Advice Letter 269-W in its entirety.

### Purpose

The purpose of this advice letter is to seek Commission approval and disposition of Liberty Park Water's Conservation Expense One-Way Balancing Account established for the 2013 – 2015 General Rate Case ("GRC") cycle. Liberty Park Water proposes a one-time sur-credit to refund the over-collected balance recorded in the Conservation Expense One-Way Conservation Balancing Account (CEOWBA).

### Background and Discussion

In Ordering Paragraph No. 11 of D.13-09-005, the Commission authorized the establishment of a one-way capped balancing account to track differences between the actual and authorized conservation program expenses for the 2013 – 2015 rate case cycle. D.13-09-005 further established that the conservation program expenses may not be incurred evenly through the rate case cycle and therefore the cap would cover the entire rate case cycle. In the event that Liberty Park Water did not spend the amount of the total cap for the Conservation Programs during the rate case cycle, then Liberty Park Water would refund any unspent amount to customers in its next GRC.

In addition, the settlement agreement between Liberty Park Water and the Division of Ratepayer Advocates (Section 11.0) states the following:

**PARK WATER REQUEST:**

Park proposed an increase in its conservation budget as compared to prior years. Park requests \$372,895 in 2013, \$387,888 in 2014, and \$399,605 in 2015 based on its Water Use Efficiency Plan. Park's request is based on the conservation programs necessary for compliance with Commission Decision 11-05-004 (Conservation OII), the Urban Water Management Planning Act, AB 1420, SBX 7-7, and the Best Management Practices (BMPs). Park is required as a signatory to the Memorandum of Understanding regarding Urban Water Conservation in California (MOU) to meet the BMPs.

**DRA POSITION:**

DRA recommends that Park maintain the current authorized level of conservation expenditures because Park is already in compliance with SBX-7-7. DRA recommends conservation expense of \$199,833 in 2013, \$208,346 in 2014, and \$217,221 in 2015.

**RESOLUTION:**

The Parties agree to the level of conservation funding proposed by Park in its application, with reduction to Park's conservation expense by outside funding currently estimated to be available for the first half of 2013 and any other outside funding through grants that Park is able to obtain for 2013-2015. The Parties agree that Park will endeavor to make reasonable attempts to secure additional grants. The Parties agree to conservation expense of \$337,995 for Test Year 2013, \$387,888 for Escalation Year 2014, and \$399,605 for Escalation Year 2015 (Park's allowed conservation expense will effectively be reduced to account for actual future availability of additional grant funding through a reduction of the cap in the one-way balancing account as described in Section 11.4).

A portion of Liberty Park Water's conservation expenditures (approximately \$88,000 through April 2016) were related to activities associated with the Governor's Drought Emergency Declaration dated January 17, 2014 and Executive Order dated April 25, 2014 and drought procedures ordered by the Commission, and is not reflected in this account. With the inclusion of grants secured by the Company, the actual expenses for years 2013 – 2015 were \$1,001,340 and were less than the authorized amount of \$1,125,488 by \$124,128. The total balance recorded in Liberty Park Water's CEOWBA is therefore an over-collection of \$124,148. With interest

through March 31, 2016, the over-collected balance was \$124,736. The over-collection resulted primarily from Liberty Park Water's ability to secure additional grant funding (\$74,250) during this rate case cycle (2013 – 2015), which reduced both the allowable and actual conservation expenditures resulting in savings for ratepayers.

The over-collection generates a decrease in the franchise and uncollectible expense of \$1,209. Liberty Park Water is requesting to have the recorded balance of \$125,945 refunded to ratepayers.

Liberty Park Water proposes a one-time sur-credit of \$4.60 per customer applicable to domestic service for Schedule No. 1, Residential General Metered Service, Schedule No. 3, Non-Residential General Metered Service, and Schedule No. 4, Non-Metered Fire Service.

Liberty Park Water also proposes to update its Preliminary Statement to reflect the termination of the Conservation Expense One-Way Balancing Account (Rate Case Cycle 2013 – 2015).

**Tier Designation**

Pursuant to Water Industry Rule 7.3.1(1) of General Order 96-B, this advice letter is submitted with Tier 2 designation.

**Effective Date**

Pursuant to General Rule 7.3.4 of General Order 96-B, Liberty Park Water requests this filing become effective in 30 days pending disposition.

**Notice and Service**

In accordance with General Order 96-B, General Rules 4.3 and 7.2 and Water Industry Rule 4.1, a copy of this advice letter will be mailed or electronically transmitted on May 18, 2016 to competing and adjacent utilities and other utilities or interested parties having requested such notification.

**Response or Protest**

Anyone may respond to or protest this advice letter. When submitting a response or protest, please include the utility name and advice letter number in the subject line. A response supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter. A protest objects to the advice letter in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

- (1) The utility did not properly serve or give notice of the advice letter;
- (2) The relief requested in the advice letter would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
- (3) The analysis, calculations, or data in the advice letter contain material error or omissions;
- (4) The relief requested in the advice letter is pending before the Commission in a formal proceeding; or
- (5) The relief requested in the advice letter requires consideration in a formal hearing, or is otherwise inappropriate for the advice letter process; or
- (6) The relief requested in the advice letter is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require re-litigating a prior order of the Commission.)

A protest shall provide citations or proofs where available to allow staff to properly consider the protest.

A response or protest must be made in writing or by electronic mail and must be received by the Water Division within 20 days of the date this advice letter is filed. The address for mailing or delivering a protest is:

### Purpose

The purpose of this advice letter is to seek Commission approval and disposition of Liberty Park Water's Conservation Expense One-Way Balancing Account established for the 2013 – 2015 general rate case ("GRC") cycle. Liberty Park Water proposes a one-time sur-credit to refund the over-collected balance recorded in the Conservation Expense One-Way Conservation Balancing Account.

### Background and Discussion

In Ordering Paragraph No. 11 of D.13-09-005, the Commission authorized the establishment of a one-way capped balancing account to track differences between the actual and authorized conservation program expenses for the 2013 – 2015 rate case cycle. D.13-09-005 further established that the conservation program expenses may not be incurred evenly through the rate case cycle and therefore the cap would cover the entire rate case cycle. In the event that Liberty Park Water did not spend the amount of the total cap for the Conservation Programs during the rate case cycle, then Liberty Park Water would refund to customers any unspent amount in its next GRC. In addition, pursuant to the settlement agreement between Liberty Park Water and the Division of Ratepayer Advocates (Section 11.0), the adopted conservation expenditures are to be reduced by the amount of funding through grants that Liberty Park Water was able to secure and

receive during Escalation Years 2014 and 2015. The total cap for the conservation programs was \$1,125,488 for years 2013 – 2015. With the reduction from the outside funding received, the total adjusted adopted conservation expenditures for the rate cycle were \$1,075,488.

Liberty Park Water's total conservation spending for the period actually exceeded the adjusted adopted amount of conservation expense, however a portion was related to activities associated with the Governor's Drought Emergency Declaration dated January 17, 2014 and Executive Order dated April 25, 2014 and related drought procedures ordered by the Commission and is not reflected in this account. For the expenses covered by this account, the actual expenses for the Conservation Program for years 2013-2015 were \$1,075,590 and exceeded the authorized amount by \$102. By definition, a one-way balancing account does not allow for the recovery of recorded expense in excess of authorized amounts. As stated above, the amount of outside funding that Liberty Park Water was able to secure through grants must be refunded to ratepayers. With interest through March 31, 2016, the total balance recorded in the Conservation Expense One-Way Conservation Balancing Account is an over-collection of \$50,132.

The over-collection generates an additional franchise expense of \$191. Liberty Park Water is requesting to have the recorded balance of \$50,323 be refunded to ratepayers.

Liberty Park Water proposes a one-time sur-credit of \$1.84 per customer applicable to domestic service for Schedule No. 1, Residential General Metered Service, Schedule No. 3, Non-Residential General Metered Service, and Schedule No. 4, Non-Metered Fire Service.

Liberty Park Water also proposes to update its Preliminary Statement to reflect the termination of the Conservation Expense One-Way Balancing Account.

**Tier Designation**

Pursuant to Water Industry Rule 7.3.1(1) of General Order 96-B, this advice letter is submitted with Tier 2 designation.

**Effective Date**

Pursuant to General Rule 7.3.4 of General Order 96-B, Liberty Park Water requests this filing become effective in 30 days pending disposition.

**Notice and Service**

In accordance with General Order 96-B, General Rules 4.3 and 7.2 and Water Industry Rule 4.1, a copy of this advice letter will be mailed or electronically transmitted on May 2, 2016 to

competing and adjacent utilities and other utilities or interested parties having requested such notification.

**Response or Protest**

Anyone may respond to or protest this advice letter. When submitting a response or protest, please include the utility name and advice letter number in the subject line. A response supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter. A protest objects to the advice letter in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

- (1) The utility did not properly serve or give notice of the advice letter;
- (2) The relief requested in the advice letter would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
- (3) The analysis, calculations, or data in the advice letter contain material error or omissions;
- (4) The relief requested in the advice letter is pending before the Commission in a formal proceeding; or
- (5) The relief requested in the advice letter requires consideration in a formal hearing, or is otherwise inappropriate for the advice letter process; or
- (6) The relief requested in the advice letter is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require relitigating a prior order of the Commission.)

A protest shall provide citations or proofs where available to allow staff to properly consider the protest.

A response or protest must be made in writing or by electronic mail and must be received by the Water Division within 20 days of the date this advice letter is filed. The address for mailing or delivering a protest is:

SCHEDULE NO. PR-1-R

RESIDENTIAL METERED SERVICE

(Continued)

20. As authorized by the California Public Utilities Commission, an amount of \$0.451 per Ccf is to be added to the quantity rate for a period of 18-months, beginning on the effective date of Advice Letter 268-W. This surcharge will recover the under-collection in the WRAM and MCBA as of December 31, 2015.
21. As authorized by the California Public Utilities Commission, an amount of \$0.03 per Ccf is to be added to the quantity rate for a period of 12 months, beginning on the effective date of Advice Letter 266-W. This surcharge will recover the net total under-collected balance for the Income Tax Repair Regulations Implementation Memorandum Account, the Low-Income Data Sharing Cost Memorandum Account, the Credit Card Memorandum Account, and the Cost of Capital Memorandum Account.
22. As authorized by the California Public Utilities Commission, a one-time sur-credit of \$4.60 per customer is to be applied on the effective date of Advice Letter 269-W-A. This sur-credit will refund the over-collection in the Conservation Expense One-Way Conservation Balancing Account as of December 31, 2015. (R)

SCHEDULE NO. PR-4F

NON-METERED FIRE SPRINKLER SERVICE

(continued)

4. Service hereunder is for private fire protection systems to which no connections for other than fire protection purposes are allowed and which are regularly inspected by the underwriters having jurisdiction, are installed according to specifications of the utility, and are maintained to the satisfaction of the utility. The utility may install the standard detector type meter approved by the Board of Fire Underwriters for protection against theft, leakage or waste of water, and the cost paid by the applicant. Such payment shall not be subject to refund.
5. The utility undertakes to supply only such water at such pressure as may be available at any time through the normal operation of its system.
6. Any unauthorized use of water, other than for fire extinguishing purposes, shall be charged for at the regular established rate as set forth under Schedule No. PR-1-NR, Nonresidential Metered Service including Special Condition No. 21, and/or may be the grounds for the immediate disconnection of the sprinkler service without liability to the Company. (T)
7. The utility reserves the right to limit the installation of private fire hydrant service to such areas where public fire hydrant does not exist or where public fire hydrant service is limited in scope to the detriment of the applicant.
8. A late charge will be imposed per Schedule No. LC.
9. All bills are subject to the reimbursement fee set forth on Schedule No. UF.
10. As authorized by the California Public Utilities Commission, a one-time sur-credit of \$4.60 per customer is to be applied on the effective date of Advice Letter 269-W-A. This sur-credit will refund the over-collection in the Conservation Expense One-Way Conservation Balancing Account as of December 31, 2015. (R)
