

Take control of your bills – Get started with these saving tips

We want to help you save. A few small steps could add up to big savings.

 **Weatherize your home** – Sealing air leaks around windows, doors, and vents will help save energy and will make your home more comfortable.

 **Smart controllers** – Smart thermostats, smart appliances, and smart irrigation controllers all use technology to help you save.

 **Look for EPA labels** – When buying appliances, water heaters, electronics, light bulbs, toilets, faucet, shower heads, and more, look for ENERGY STAR® and WaterSense labels. Items with these labels are certified by the EPA to use less and can save you significant money on your utility bills.
