

Water Quality is Important – Every Last Drop

August is National Water Quality Month, and in recognition, Liberty Utilities is shining a spotlight on the steps we take, and those you can take, to ensure the drinking water at your tap is safe, clean and dependable.

- **Where does your water come from?** Click [HERE](#) to see your groundwater's journey from its source to your tap.
- **Top 10 Ways to Protect & Conserve Groundwater.** Click [HERE](#) to see how you can protect this precious resource.
- **Liberty Utilities' commitment to safe drinking water.** Liberty Utilities takes water quality seriously, and our team of dedicated water experts is meticulous with our process of testing, treating and delivering water. We analyze hundreds of water samples each month for approximately 200 contaminants through contract certified laboratories to assure all primary (health-related) and secondary (aesthetic) drinking water standards are met.

We are proud to be your water provider and work hard every day to ensure you receive quality, dependable water service.

For additional information on Liberty Utilities' water quality program, customers are encouraged to call us at 760-247-6484 or follow us on [Facebook](#). To view the 2018/19 Water Quality Report for your area, please visit www.libertyutilities.com and select your community.

Sincerely,

Tony Penna

Vice President and General Manager, Liberty Utilities Apple Valley
