**NOTICE OF PROPOSED PURCHASE OF  
THE CITY OF PERRIS MUNICIPAL WATER SYSTEMS  
BY LIBERTY UTILITIES (PARK WATER) CORP.  
APPLICATION NO.18-05-011**

Dear City of Perris Water Customer:

On May 9, 2018, Liberty Utilities (Park Water) Corp. (Liberty Park Water) filed Application No. 18-05-011 with the California Public Utilities Commission (CPUC) requesting authority to purchase the City of Perris’s Municipal Water Systems (Perris MWS). The proposed sale is valued at \$11,500,000. The Perris MWS are currently in debt. Each year more money is spent operating the water system than the amount that is collected from customers. The City of Perris (City) General Fund pays for these deficits, which means there is less money for public services benefiting all City residents.

Liberty Park Water’s application is also requesting an interim rate plan for Perris customers during the first 10 years after the sale (Perris Interim Rate Plan). After the sale is completed, rates would be adjusted to the rates in effect for the Eastern Municipal Water District (EMWD)<sup>1</sup>. Under the interim rate plan, rates can be adjusted each year to match any increase by EMWD or 3.3%, whichever is greater. Future rates are also subject to changes in the supply mix necessary to reliably serve customers or changes in purchased water rates. The Perris Interim Rate Plan is designed so all water service provided within the City is similarly priced. When the Perris Interim Rate Plan ends, rates will be set by the CPUC in a future Liberty Park Water General Rate Case. Tables 1A and 1B show the rates proposed by the Perris Interim Rate Plan.
